AND TEACHERS

This school has been an amazing ministry over the past 49 years.

- Entire families have come to Christ through their children being at this school.
- Former students have shared how God has used the verses they memorized as students later in their lives during rough times.
- Even the students and families that have not accepted Christ over the years, have at least heard the gospel many times.
- We could fill this school easily with students if we had teachers.
- I turn students away almost every day lately.
